

## **Applying sun cream policy**

Children attending Little Paws nursery will be expected to have sun cream applied before they attend nursery in hot weather and we will not apply any unless a member of staff has been informed they have not had any applied. In hot weather we will re-apply sun cream if a parent has signed the permission slip on the registration form.

Little Paws nursery will keep a small amount of sun cream in stock of factor 50 sensitive to use if children do not have their own.

Shaded areas will be accessible to all children alongside fresh drinking water.

In extreme temperatures Little Paws nursery will limit the amount of time the children are outside.
